# TEXAS BUSINESS LITIGATION, 2017

SOFIA ADROGUÉ, EDITOR, CAROLINE BAKER, CO-EDITOR

Any attorney who has been licensed for a few years should appreciate the fact, and any seasoned practitioner will agree, that the practice of law in the 21st century bears little resemblance to that of the 1900's and it is not entirely due to the technology age. To some degree, it requires almost a re-education process. There is no doubt that it requires a new approach.

The advent of new statutes and changing regulations requires constant vigilance and careful attention by those who appreciate the importance of staying current in their representation of clients. That is the beauty of this treatise. Almost no topic of interest, especially to those who have a litigation practice, has been overlooked. Each of the more than 22 topics has been covered in depth. It can be used as a handy reference as the need arises.

I predict this publication will be the quick "go to" work for those who "enjoy" an active practice, whatever the area.

—Hon. Ruby Kless Sondock

Modern complex business litigation presents a witches' brew of risks to both sides. Controlling legal standards vary across possible venues. Discovery costs are potentially exorbitant. The challenge of persuasively communicating to courts and juries on issues which are foreign to them requires great imagination and skill. Realistic assessment of settlement values is a critical and difficult art.

The Editors have assembled a galaxy of some of the best trial lawyers in the nation to address the myriad issues raised. This work will be an invaluable resource for both trial lawyers and corporate counsel.
