

## Tips

*Gray Reed's Employer Handbook*

May 28, 2013

For the first time, we have focused on a topic that might not apply to everyone. We received a special request for an edition on tips. So, here it is!

For those outside the tip arena, this edition will hopefully still be worthy of a read to learn how your tips are likely to be sliced and diced before finally making it into the pocket of your server at the next restaurant you visit.

In case you missed it, we do entertain special requests. Let us know what other topics you might be interested in learning more about.

Take a look at this [month's edition](#).
